### VACANCY ANNOUNCEMENT: RPA 04-150-41

#### WATER RESOURCES CONTROL ENGINEER

#### LOCATION: CENTRAL VALLEY REGIONAL BOARD, RANCHO CORDOVA

**DUTIES:** Under the supervision of an AEO and the close supervision and professional direction of a Senior Engineering Geologist, the incumbent will perform staff level activities for work assigned to the Non 15 and Title 27 units. This work is associated with the engineering evaluation, regulation, and compliance assurance of waste discharge to land and land disposal facilities. The incumbent will also serve as a technical advisor for Non15 and Title 27 staff on issues related to enforcement efforts. The incumbent will provide regulatory oversight on projects such as municipal and industrial liquid waste treatment and disposal sites, landfills, surface impoundments, mines, food processing facilities, and hazardous waste facilities. The incumbent will review engineering and hydrogeologic reports, write waste discharge requirements, conduct compliance inspections, respond to complaints, and prepare enforcement actions. In addition, the incumbent will provide enforcement tracking, oversight, and coordination as required; prepare oral and written reports that effectively communicate water quality and enforcement issues to the Regional Board, the public and technical staff; and provide good customer service including the coordination of Regional Board work with public entities, public and private groups, and members of the public.

**DESIRABLE QUALIFICATIONS:** Applicants must have strong verbal and written communication skills; excellent organizational skills, including the ability to coordinate multiple tasks and set priorities and deadlines; comprehensive knowledge of water quality laws and Regional Board and State Board plans, policies, and regulations; ability to work both independently and cooperatively as part of a team; ability to work under pressure; good interpersonal skills; a working knowledge of PC and software applications; experience in surface water and groundwater quality regulation; the ability to identify technical and sensitive issues that require management approval; and the ability to work effectively with professional staff and the public while maintaining cooperative relationships.

**WHO MAY APPLY:** Applicants must hold a current Water Resource Control Engineer appointment or possess list, transfer or reinstatement eligibility. Priority will be given to individuals with current reemployment, SROA, and surplus status. In addition, applications will also be accepted from individuals with Environmental Scientist or Engineering Geologist appointments or eligibility. Applications will be screened and only the most qualified applicants will be interviewed.

**Permanent, full-time position. Final filing date: until filled. Submit a resume and state application form to Steve Rosenbaum, Senior Engineering Geologist, Central Valley Regional Water Quality Control Board, 11020 Sun Center Drive #200, Rancho Cordova, CA 95670 or contact Steve Rosenbaum at (916) 464-4631 or by e-mail at [srosenbaum@waterboards.ca.gov](mailto:srosenbaum@waterboards.ca.gov) for further information.**
